

**A MESSAGE TO THE CLASS OF 2010 FROM THE PRINCIPAL:**

With only a week left until graduation, many are asking where the school year has gone? It seems like Christmas was only yesterday! I'm sure that my perspective on the speed of the school year at MLHS may not accurately reflect that of the senior students. Looking back, it doesn't even seem possible that the Class of 2010 should be ready to walk across the stage at graduation to receive their diplomas. While these past four years have flown by, the changes in the Class of 2010 as they have transitioned from freshman to seniors are noticeable. They have all grown and matured both physically and mentally. They have all acquired knowledge and experience through the process of working with the teachers and each other in their classes. They have worked together and with others to find success in athletics, activities and in the classroom. The senior sponsors have complemented them for having orderly and productive class meetings! Most of them have learned to meet challenges and conquer the difficult and stressful situations they've encountered on the journey that has been Medicine Lodge High School. While the experience has not been exactly the same for all of you the last four years, you will gather together for one last time on the evening of May 22nd to celebrate with the world what you have accomplished. You will then scatter in pursuit of new and different dreams and goals as you continue down the road of life.

Mike Hubka, Principal

While you think back on your life at Medicine Lodge High School, remember those things that you will take with you as you leave; the knowledge and skills, the friendships, the experiences and memories. Remember the value of hard work. Remember the parents, teachers, friends, family and others who helped you get to this point in time. They support you now and will in the future as well.

I, along with the entire MLJ-SHS staff, want to proudly congratulate you on all that you have accomplished in completing your high school education. It has been our task to give you some of the tools you will need in tackling whatever lies ahead, so we truly want to see you succeed. Your future is yours to decide, so embrace the challenge to be what you want to be and to be the best doing it. We wish you the best of luck in all that you encounter in that future.

Sincerely - Mr. Hubka
